Duravit Rimless

perfect flushing of the inner surface, outstanding flushing results even with small volumes of water

compatible with different cisterns

less residue accumulation thanks to the large area flushed with water

ceramic distributor

quick and easy to clean

optimised design of the flushing rim and bowl geometry for dynamic water flow and optimum surface flushing

hygienic surface flushing, regardless of the cistern

hygienic: fully-glazed, extremely smooth ceramics prevent the formation of germs and the build-up of residue

thanks to the intelligent inner geometry, the water level is 16 mm above the specially formed ceramic

Commercial Urinals

The infrared-controlled electronics automatically detect the arrival of a user and start the flush as soon as the user moves away from the urinal.

When it's time to change the battery, the vandal-proof control unit can be removed and replaced in next to no time.

Whirlpool

Floor jets (air)

Warm air is injected into the bath by 12 flat jets embedded in the floor of the tub.

Drilled floor jets (air)

Warm air is injected into the bath by 12 drilled flat jets embedded in the floor of the tub.

Side jets (mixture of air and water)

6 flat side mounted jets create maximum hydrotherapeutic action with actuated intensity of the massage, regulated via an air regulator.

Durapearl flat floor jets (mixture of air and water)

12 flat Durapearl jets embedded in the floor of the tub with 3 functions: the sparkling mixture of air and water, the refined jets of water or the classical warm air effect. The plus or minus keys may be used to regulate intensity.

Back jets (mixture of air and water)

4 or 8 (depending on the bathtub model) flat adjustable jets have a beneficial effect on the back.

Foot jets (mixture of air and water)

2 adjustable jets are stimulating the reflex zones of the foot.

Swivel jets

4 flat jets in the back area ensure a powerful, beneficial massage that moves around the entire back area.

Heating

Electronically controlled thermal system to compensate for loss of temperature during whirl action.

LED white light

2 LED spotlights (white light), create a cosy atmosphere in the bathroom.

LED coloured light

Light from 5 LED spots set into the side walls suffuses the water in alternating, bright colours. A colour in accordance with the atmosphere. LED white light is going to be replaced.

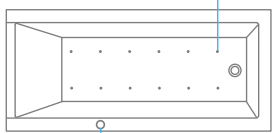

UV Hygiene Management

Simple, environmentally-friendly hygiene by means of automatic UV disinfection. Permanent monitoring of operation by optical sensor.
