

glass  
1989

## Company Profile

## Glass at glance

*Glass products, since 1989, are **designed around consumers** from all over the world. Our product portfolio is the result of our **extensive experience** of the bathroom and wellbeing sector and is based on a strong commitment to research and development. In 25 years, the guiding **principles and values** on which Glass was founded have always been kept alive and well balanced.*

Attention to Consumers

**Innovation**

**Quality** and Safety

*Customer care*

Made in Italy

# Glass history

1989  
The beginning  
of our history

## Glass Idromassaggio was established in 1989

*by a group of businessmen who were absolutely convinced that hydromassage systems, at that time for the few, would become more and more popular.*

1994  
Glass takes  
the plunge

*Encouraged by its growing success, in 1994 Glass became a joint-stock company and built its **head office** in Oderzo. To reduce the impact on the environment, Glass decided to use **environmental** free production processes.*

2000  
Becoming an  
international player

*In 2000 **Glass entered Masco** Corporation, US world leader in the manufacture of home improvement and building products. The Masco acquisition gave Glass the chance to **expand in the international market** and set up important distribution and supply partnerships. Glass became **R&D centre of excellence for Hansgrohe** and is still a preferred supplier for the German company.*

2008  
Design and Made in Italy  
as core values

*In 2008, **Igi Sgr** assisted the company's current CEO to acquire 100% of the **Glass capital** from the American multinational, a step which lead to further corporate growth by increasing the designer product range and defining new agreements.*

Today  
Always Looking forward

*Glass, with its state-of-the-art **factory** in Oderzo of over **20.000 m²** and more than 120 employees, currently operates in **over 50 countries** all over the world. The company has earned itself a solid reputation for its continuous **drive towards innovation**, extreme flexibility in production and great adaptability.*

## SPA Rituals

*Relax.  
Be cleansed.  
Regain Equilibrium.*

## Showering

*Transparency.  
Variation&modularity.  
New concept of the space.*

## Home Wellness

*Tradition&innovation.  
Beauty and functionality.  
An intimate wellbeing.*

# Spa Rituals

*SPA Rituals range of products integrate ancient rituals with state of the art technologies, to guarantee **customized solutions** specially designed for those who consider wellbeing to be a haven within their home.*

*For Glass, the “SPA Rituals world” is the place where you can **fully experience precious moments of relaxation** and relieve from the daily tensions.*

***Spas, hammam, saunas** and wellness environments can all be designed to meet even the most sophisticated requirements and can be personalized in a wide variety of ways.*

*Let us guide you through the world of Glass where our architects can design **your own personal space** for your own personal wellbeing, **free from the constraints of standard solutions.***

*Because wellbeing is like a bespoke suit – it leaves very little space for compromise.*

# Showering

**Modular systems** which take your shower space and transform it into a **highly versatile environment** with **tailor-made functions**, sizes and solutions just for you.

*Glass Showering is a new concept of the space dedicated to the shower, where elegance, transparency and modularity reign supreme. It is **virtually impossible not to find what you are looking for** in the Showering catalogue, thanks to its wide range of **shower enclosures** with standard or customized measurements, conceived as single elements or combined with **shower trays** and **panels**. Rather than adapt your tastes to the existing environment, create the one you want.*

# Home Wellness

*The Home Wellness collection is inspired by the idea of wellbeing and beauty.*

*Home Wellness is not only a matter of bathroom furnishing, but of conceiving distinguishing solutions that talk about a lifestyle. Yours.*

**Whirlpool bathtubs, shower cabins, classic and contemporary design tubs** that will make your bathroom space a **charming but functional place to enjoy everyday. Enter in this special place, that talks about you, your style, your tastes: embrace complete relax in your home and experience our creative design products, which don't leave anything to chance.**

# Project References

*Glass has a long history in the design and production of bathroom furnishing for the **hospitality and residential** industry.*

*Thanks to our extensive experience around the globe, we have already managed to acquire a large number of satisfied customers from different countries.*

*Over the years Glass has strengthened its **cooperation with the world's most important hotel brands** and designers, like Radisson, Marriott, Sheraton, Hilton and Hyatt Hotels, realizing dozens of international residential projects, **hotels, spas & health centres, yachts and private residences.***

*Our experience and flexibility let us delivery successfully any customer project with high-quality service, by taking care of every step, from the planning to the after sales assistance.*

*Following, you can find a small selection of our reference projects.*

## Designer Collaboration

*Design & Innovation have always been core values of Glass.*

**Glass seeks to always be ahead of the market**, constantly exploring new habits, and launching new products: every product we create is carefully crafted to meet the needs of our clients and their guests, **nothing is left to chance.**

*In the constant search for excellence in product development, **Glass works closely with emerging and archistar designers** who have "signed" innovative and distinctive products in other sectors too. For these reasons, **design and attention to details** are among the main strengths of our brand.*

# Our competitive advantages

**Glass manufactures and assembles in Italy** *in the Oderzo plant: many of the manufacturing operations are done by skilled labor.*

*Our expertise, combined with a very* **efficient and well organized plant** *and an internal warehouse with stocked semi-finished products, allows us to grant our clients* **short production timings.**

*Our goal is to promote and offer Italian* **design and quality** *all over the world.*

*We put the highest* **attention** *during the production process at Glass: our* **products are tested individually in all components** *during assembly. Glass has been* **ISO 9001** *certified since early 90s.*

*The quality and safety of products of each model is verified and approved by an independent body and certified according to European (EN) standards.* **Respect for the environment,** *is always a vocation for Glass.*

*The continuous search for innovative* **methods to reduce environmental impact** *is the primary objective at every stage of design and product prototyping.*

# H2O Product Selection

glass  
1989

**SOFA,**  
*designed by*  
*Meneghello*  
*Paoletti Associati.*  
*It is a*  
**freestanding**  
*bathtub with a*  
*contemporary*  
**design** *that*  
*takes*  
**inspiration**  
*from ancient*  
**luxury sofas.**

# Sofa

**Size:** 188\*89/67

**Sofa bathtub** is made in **MineraLite**, which is a material made with a mixture of resins and minerals. The surface has **brilliant glossy finishing**, bath feet are in **treated natural wood**, in brown or white colour.

**CONCRETE BATH**, designed by Glass Lab. It is Glass iconic freestanding bathtub .  
With its smooth shapes, it suits both modern and classical style room spaces.

# Concrete Bath

**Size:** 190\*100\*45H

**Concrete bath** is made in **MineraLite**, like Sofa bathtub.

The surface has **matt finishing** and there are **different colours** available: white, anthracite grey, sand, pearl grey, mudd, concrete grey.

It is a **self standing** bathtub, but as optional you can have a **visible structure**, in grey or bronze colour.

**PEARL**, designed by Monica Graffeo and Glass Lab.

*This **acrylic** bathtub has been conceived as a functional and unique interior design item, combined with **matching accessories**.*

# Pearl

**Size:** Ø175\*65H; 180\*80\*65H

**Acrylic**, glossy white. The **built-in** version is available also with **whirlpool** system, **airpool** system or **combi** system. This bathtub can be round or rectangular with smoothed out corners. With the **freestanding version** you can have simple bathtub or airpool bathtub with **white acrylic panel** or **woven panel** 4mm rope, steel or bronze colored. You can also choose some accessories especially designed to be combined with the rope woven panel.

**BEYOND BATH**, *designed by Claudia Danelon.*

*It is a unique bathtub , set inside a **monolith** that can be finished as preferred.*

# Beyond Bath

**Size:** 185\*109\*60H

**MineraLite** (*resin mix*) **bathtub**,  
*can be white or black, matt or glossy  
finishing.*

*It is sold with a **polystyrene  
monolith** that you can finish  
according to your tastes and needs.  
The dimension of the monolith is  
245\*80\*45H.*

**EDEN**, designed by Claudio Papa. Classic **rectangular shapes**, different configurations, optional and accessories to meet different clients' demands.

## Eden

**Size:** 150\*70 (other sizes available)

*This **acrylic** bathtub can be built-in or framed with panels; installed in niche version, corner version, wall version or freestanding. You can choose acrylic white panels or **wood panels** (planked oak, dark walnut, grey oak, dark oak, walnut). You can have **simple shell** or **bathtub with system** (whirlpool, airpool, combi and combi top). With combi top version you can also add chromotherapy and heater.*

**POP series,**  
*designed by Glass  
Lab.*  
*Rectangular, corner  
and asymmetric  
bathtubs. **Clean  
design** appreciated  
throughout the  
world.*

# Pop

**Size:** 140 (other sizes available)

This **acrylic** bathtub can be built-in or framed with corner panel. You can choose **any RAL color for the panel.**

You can have **simple shell** or **bathtub with system:** to this one you can also add chromotherapy.

Lis

Lis

**Size:** 180\*110; 170\*80;  
150\*70 (other sizes  
available)

**Acrylic** bathtubs that can  
be built-in or framed with  
white panels; installed in  
niche version, corner  
version or wall version. You  
can have **simple shell**,  
**whirlpool** or **combi**  
bathtub.

Particularly appreciated in  
residential and hotel  
projects.

# Capri

**Size:** 140 (other sizes available)

**Acrylic** bathtub that can be built-in or framed with white corner panel. You can have **simple shell**, **whirlpool** or **combi** bathtub.

# Astor

**Size:** 105\*70; 120\*70 (other sizes available)

**Acrylic** built-in bathtubs. They are **simple tubs** mainly chosen for residential projects.

**MODULA S & L,**  
*designed by Tommaso  
Bistacchi and Davide  
Anzalone.*

*The two Italian designers  
conceived Modula as a  
**modular system**  
**made with tiles** that  
combined together can  
be used to decorate your  
shower and hammam  
space: every tile is 30\*30  
cm, made in **Mineral  
Resin Mix**, white  
colored.*

# Bliss

**Size:** 133,5\*22

*Charcoal grey painted **steel** structure.*

*Front cover in **acrylic**, available in white, black, amaranth red or grey. Integrated rectangular showerhead, 2 vertical jets with **anti-limescale nozzles**, handshower with flexible hose and **Hansgrohe** thermostatic mixer and diverter. Lateral shelf.*

- **hourglass**

## Portable SPA

A **Portable SPA** is an highly versatile Spa, which can meet any specific demand, because **all the technology is** already installed, **hidden behind the panels**, there's no need of an external technical room.

This makes the installation extremely easy, because the SPA doesn't require particular plumbing arrangements or a dedicated technical compartment.

The Portable SPA is **ready to use**: you just fill it with water, plug it to electricity and you can start enjoying your SPA!

## Overflow SPA

Bathing in an **Overflow SPA** is a unique and magic experience, that allows you to relax completely: let yourself **be embraced by water**, to restore mind and body.

The overflow rim creates a **waterfall effect** that gives you the feeling of being totally **surrounded** by water and wellness. Water is always kept at the maximum level thanks to an automatic waterfilling system.

The whole **system** (pumps, filtrage and compensation tank) is **located in a separated technical compartment**.

**MYSAPA 195-E,**  
*designed by Glass Lab.*

**Size:** 186\*186\*90H
